PROJECTS

OnlineShopping Website GroupProject | LiveforWrapovish,Kolhapur
- Built a near-complete, runnable e-commerce site where shop owners add products and customers browse and buy them.
- Deployed for a real established shop in Kolhapur; the site was live and in use for about one month.

AISmart Campus College Project (TPMSLab)| Praised byfaculty
- AI platform that matches students with similar skills and profiles to build networks, and generates a personalized career roadmap from their skills, languages and projects.

Fixit – Civic Complaint Dashboard Individual Project
•Backend-focused project where citizens file complaints (water, electricity, etc.); a dashboard compiles them monthly for authorities to act on.

Kuromi AI Assistant Individual Project
•My first AI assistant, built to explore how AI models can answer queries and assist users.

MatChek Hackathon Project
•Material-information website built with a team during a hackathon under time pressure.

SmartCityDashboard(Power BI) College PresentationProject
•Interactive dashboard comparing cities on water, electricity and basic needs (out of 100) using KPIs, tabs, buttons, pie and bar charts.

Web Development Internship Projects Synapse Notes | Expense Tracker | DevSphere
•**Synapse Notes:** AI tool that helps students create educational notes.
Expense Tracker: tracks household/personal spending with bar-graph charts against budget.
•**DevSphere:** beginner-friendly blogging site with guided sections for writing and images, with direct publishing to LinkedIn, Instagram, etc.

LEADERSHIP & ACHIEVEMENTS

- **LLC Coordinator in MLSA** at D.Y. Patil College of Engineering and Technology, Kolhapur.
- **2nd Rank** in college-level project competition for NeuroX, a student networking and academic-resource platform.
- Participated in coding competitions and hackathons, building teamwork, ideation and problem-solving skills.
